

# Moving forward, together

Welcome to the 2016 Annual Report. Last year was a banner year for Summa Health, both financially and strategically.

Through the announcement of our \$350 million facility plan and the unveiling of our new branding, we once again reinforced that Summa Health is an organization that not only improves the health and wellness of our community, but also serves as an economic engine that fuels the city for growth.

Summa Health is making a real difference in the lives of our community. These videos reflect that in many ways, including our work to fight the infant mortality rate, bringing cutting-edge stroke care to all of our patients, and showing how teams of clinicians work in tandem to save lives.

None of this would be possible, of course, without the hard work of our 8,000 dedicated employees, who provide high-quality care for our patients each and every day.

Thank you for your interest in and support of Summa Health.

Cliff Deveny, M.D.  
Interim President and CEO  
Summa Health

James McIlvaine  
Chair, Board of Directors  
Summa Health
